

UniFirst

The choice for **life science**
work apparel programs

Creating and maintaining a cohesive, branded uniform program for a diverse staff can be challenging, particularly in the life science industry where a variety of garments and styles are often required to serve the distinct needs of multiple departments. That's where UniFirst comes in.

A well-designed and managed work apparel program from UniFirst not only delivers the professional employee image you want, it can also help keep your personnel safe on the job. Whether it's traditional life science garments like scrub tops and pants, protective clothing like Flame Resistant (FR) and static-control lab/counter coats designed for safety, or image-enhancing business essentials like polo shirts and service pants, UniFirst's managed uniform rental programs offer the right workwear options for employees in all areas of your business. And our large selection of products and fabric choices is certain to match your brand's performance needs. In addition, a managed UniFirst facility services program can help keep your workplace clean and safe, and create a healthier, more attractive work environment.

Cost-effective solutions for all of your workwear needs

UniFirst managed apparel rental programs combine expert hygienic laundering with specialized uniform services to help maintain garment functionality and enhance your professional business image.

With a value-based, professionally managed UniFirst rental program, weekly pickup and delivery means employees don't have to worry about the cleaning and maintenance of their uniforms. Plus, our professional mending and repair services, along with garment replacements as needed, help assure that clean, maintained uniforms are always available when you need them.

You have a lot of responsibilities, so don't let staff uniforms add to your stress. Trust UniFirst to keep your team in professional-looking uniforms that enhance your business image and allow you to focus on what you do best — producing great results.

Facility services

UniFirst's facility service programs help you win the battle of positive perceptions with your customers, employees, and other stakeholders. We eliminate the hassle and expenses related to purchasing, stocking, laundering, and maintaining supplies with our regular personalized services.

Floor Mats

All of our UniFirst-made floor mats, from decorative entrance and photo/logo/message mats to nitrile rubber scrapers and "wet area" mats, are designed for commercial foot traffic and trap and hold dirt, dust, and moisture better than the alternatives. With UniFirst regularly scheduled floor mat service, all soiled mats are picked up and replaced with professionally cleaned ones.

Wet and Dry Mops

UniFirst mop services are designed to make cleaning easier and more economical for businesses of all sizes and traffic volumes. We take care of all the dirty work, including the laundering and regular replacement of soiled mops with fresh products.

Microfiber Mops and Wipers

Our advanced microfiber mops, dusters, and scrubbers are highly effective for cleaning hard surfaces. They can be used wet or dry and allow you to clean faster with less water and chemicals.

Ancillary Products

To help safeguard your staff on the job, UniFirst offers a selection of personal protective equipment (PPE), including latex and nitrile gloves, safety glasses, facemasks, and more. High-quality cleaning cloths, disposable wipers, and other ancillary products also available.

Regular weekly service delivers what you need, when you need it, helping lower your housekeeping and facility maintenance costs.

Hand Care, Soaps, and Sanitizers

UniFirst handwashing and skin care products, which include those from GOJO®, are formulated to clean, kill germs, and keep skin soft and healthy—even with frequent use—and we have environmentally friendly “green” options available too. Each product is available with our stylish dispensing systems, featuring cost-saving portion controls. Your UniFirst representative can recommend the products that will work best for you.

Paper Towels and Toilet Paper

To provide sustainable restroom cleanliness and hygiene solutions, UniFirst supplies TORK® paper towels and toilet paper, which carry Green Seal and ECOLOGO® certifications and are manufactured from base paper that is 100% recycled. Portion-controlled paper dispensing systems reduce waste and come in traditional and “touchless” options.

Air Fresheners

UniFirst offers environmentally friendly air freshener system options that neutralize odors at the molecular level, eliminating unnecessary chemical “masking” that could affect air quality. All of our odor control products meet stringent clean air standards and dispense fragrance in accordance with guidelines established by the International Fragrance Association to protect the environment and human health.

Cleaning and Disinfecting Solutions

Save up to 90% or more in product costs when compared to purchasing ready-to-use cleaning and disinfecting solutions. Unlike mixing “free pour” concentrates, UniFirst’s wall dispenser and “one-shot” systems accurately dilute and dispense the high-performance solutions you need with ease and with no wasted concentrates. PURELL® Surface Sanitizer and Disinfectant Spray System also available.

We offer a complete line of facility products and services, safety products, and PPE not shown. Just ask your UniFirst representative about other facility service options.
