The Choice
for healthcare apparel & facility service programs

Solutions for healthcare workers, purchasers, and facility managers.
A well-designed, coordinated work apparel program from UniFirst delivers the professional image you want and helps build team spirit. It’s the best way to clearly establish employee identity and generate patient confidence. And with our specialized healthcare services and facility service products, we also assist in meeting your infection control goals.

Whether it’s our specialized garment and microfiber cleaning programs, our floor mat and wiper services, or our germ-killing Provon® and Purell® hand hygiene products, you can count on UniFirst for managed solutions that satisfy your staff, exceed your patients’ expectations, and benefit your bottom line.

The products shown here are just a sampling of our comprehensive healthcare offering. If you don’t see what you’re looking for, simply inquire with your UniFirst representative.
UniFirst managed apparel rental services for healthcare operations include specialized laundering and processing within our strict Product Protection Process (PPP), which features portal-to-portal sanitization controls that deliver hygienically clean results you can’t get with more traditional laundering methods.

Our proprietary healthcare wash formulas and procedures exceed ASTM, OSHA, and CDC protocols, and use EPA registered agents that “ultra” clean and remove contaminants, and produce self-sanitizing effects on fabrics.

Plus, our UniFirst employee Team Partners are specially trained in the many safety procedures and precautions required when servicing the unique needs of our healthcare customers.

For hygienically clean, high quality apparel, trust UniFirst.

### Case quantities available upon request for all medical gloves.
The Centers for Disease Control and Prevention (CDC) reports that up to 1/3 of the infections acquired by 2 million hospital patients treated each year are preventable. According to the American Journal of Infection Control, microfiber demonstrates “superior microbial removal” compared to conventional products. When used properly, our microfiber products help control infection, boost worker productivity, and lower your costs. Microfiber wet mop pads penetrate surface pores to remove bacteria and germs. Versatile microfiber wipers are available for a variety of cleaning needs.

- Reduce chemical usage up to 95%\(^1\)
- Reduce water usage up to 95%\(^2\)
- Reduce solid waste (products are reusable)
- Reduce cleaning time\(^3\)
- Decrease slips and falls (less liquids on floors)
- Decrease custodial staff injuries related to mop use\(^4\)
- Help earn “green” environmental certification points such as LEED*
