

UniFirst

The choice for food-related
work apparel programs

Uniform solutions for HACCP/GFSI-conscious companies.

When food is your business, product safety is vital to long-term success, and careful controls are critical to achieving regulatory compliance. Food-related businesses, like yours, must pay careful attention to how employee work garments are designed, maintained, hygienically cleaned, and managed to minimize the risks of workwear becoming a potential source for food contamination. That's where UniFirst comes in.

We're a national leader in HACCP/GFSI-conscious uniform service programs and offer a wide range of food-related garment options. We understand your food safety requirements, we follow specialized standard operating procedures consistent with your food safety goals, and we'll work with you to meet the individual needs of your business.

Our managed uniform rental programs offer the right workwear options for employees in all areas of your business, and our large selection and variety of fabric options are sure to match your brand and performance needs. To top it all off, we can also deliver a customized facility services program to help keep your workplace clean and safe while creating a healthier, more attractive work environment.

Safe and cost-effective solutions for all of your workwear needs

UniFirst's managed apparel rental programs for food businesses combine HACCP/GFSI-conscious workwear, expert hygienic laundering, and specialized services to help you with your compliance goals. Our UniSafe® Service and Product Protection Process (PPP) is a portal-to-portal garment sanitization procedure designed specifically for food processing and food service providers to help minimize cross-contamination risks. Results of independent testing show that our UniSafe Service and PPP are capable of destroying more than 99.9999%* of microbial contamination associated with uniforms and other food worker garments.

Our PPP begins at your facility and extends throughout all garment handling, laundering, and finishing procedures in order to regularly deliver hygienically clean garments on a weekly basis. Our value-based, professionally managed rental program means employees don't have to worry about cleaning and maintaining their uniforms thanks to our weekly pickup and delivery. Plus, we assure that clean, maintained uniforms are always available with our professional mending and repair services and as-needed garment replacements.

You have a lot of responsibilities, so don't let staff uniforms add to your stress. Trust UniFirst to keep your team in professional-looking uniforms that enhance your business image and allow you to focus on what you do best—delivering great service. You always deliver for your customers. That's why we always deliver for you.

HACCP/GFSI-conscious workwear

Recommendations for choosing HACCP/GFSI specialized garments

No pockets above waist to help prevent contaminants from going inside, potentially falling into food or packaging.

No buttons that could potentially fall in food or packaging. Snap closures are preferred.

Durable material such as industrial-grade fabrics that resist contamination and help prevent erosion.

Long sleeves to cover arms and long pants to cover legs, to prevent hairs and other skin contaminants. Elastic cuffs are preferred.

Color-coded garments to distinguish workers in food processing areas (those who handle raw and/or cooked food) from other workers to help avoid cross-contamination.

Flame Resistant (FR) shirts, for applicable jobs, to help you comply with the NFPA 70E and other safety standards.

UniWear® Food Processor Coats

MIMIX™ scientifically designed garments are changing the way people think about workwear. Built-in stretch mesh panels have been strategically placed to maximize mobility and improve breathability. Bend, stretch, squat, and reach without feeling confined or concerned, because MIMIX is built for the way you move.

MIMIX™ OilBlok Chef Coats

Dramatically improve mobility, comfort, and appearance with these innovative MIMIX chef coats. The strategically placed mesh stretch panels on the back add mobility and breathability. The lightweight ripstop fabric engineered with OilBlok technology repels cooking oils to keep coats stain free. Touchtex™ technology provides superior color retention, stain resistance, and wickability. Button-down front with chest pocket for added storage. Left sleeve pocket keeps thermometer close at hand. 4.25 oz. 65/35 poly/cotton ripstop.

Facility services

Our facility service programs help you win the battle of positive perceptions with your customers, employees, and stakeholders. With our regularly scheduled services, we eliminate the hassle and expense of purchasing, stocking, laundering, and maintaining supplies. We deliver what you need, when you need it to lower maintenance costs, while improving overall hygiene and safety.

Floor Mats

All UniFirst-made floor mats, from decorative entrance and photo/logo/message mats to nitrile rubber scraper and "wet area" mats, are designed for heavy foot traffic and trap and hold dirt, dust, and moisture better than the alternatives. With regularly scheduled floor mat service, soiled mats are picked up and replaced with professionally cleaned ones.

Microfiber Mops and Wipers

Our microfiber mops, dusters, and scrubbers are ideal for cleaning hard surfaces. Use them wet or dry, and clean faster with less water and chemicals.

Wet and Dry Mops

UniFirst mop services are designed to make cleaning easier and more economical for businesses of all sizes and traffic volumes. We take care of all the dirty work, including the laundering and regular replacement of soiled mops with fresh products.

Towels and Cloths

Our regular laundering and inventory management services ensure you always have fresh, high-quality cleaning cloths on hand when you need them. Disposable wipers are also available.

Cleaning and Disinfecting Solutions

You can save up to 90% or more in product costs when compared to purchasing ready-to-use cleaning and disinfecting solutions. Unlike mixing "free pour" concentrates, our wall dispenser and "one-shot" systems accurately dilute and dispense the high-performance solutions you need with ease and with no wasted concentrates. PURELL® Surface Sanitizer and Disinfectant Spray System is also available.

Hand Care, Soaps, and Sanitizers

UniFirst handwashing and skin care products, which include those from GOJO®, are formulated to clean, kill germs, and keep skin soft and healthy—even with frequent use—and we have environmentally friendly “green” options available too. Each product is available with our stylish dispensing systems, featuring cost-saving portion controls. Your UniFirst representative can recommend the products that will deliver the best results for you.

Paper Towels and Toilet Paper

To provide sustainable restroom cleanliness and hygiene solutions, we supply TORK® paper towels and toilet paper, which carry Green Seal and ECOLOGO® certifications and are manufactured from base paper that is 100% recycled. Portion-controlled paper dispensing systems reduce waste and come in traditional and “touchless” options.

Air Fresheners

We offer environmentally friendly air freshener system options that neutralize odors at the molecular level, eliminating unnecessary chemical “masking” that could affect air quality. All of our odor control products meet stringent clean air standards and dispense fragrance in accordance with guidelines established by the International Fragrance Association to protect the environment and human health.

Ancillary Products

To help safeguard your staff on the job, we also offer a selection of personal protective equipment (PPE), including latex and nitrile gloves, safety glasses, facemasks, and more. High-quality cleaning cloths, disposable wipers, and other ancillary products also available.

We offer a complete line of facility products and services, safety products, and PPE not shown. Just ask your UniFirst representative about other facility service options.

UniSafe® white paper with laboratory-proven results

Independent laboratory tests show that UniFirst UniSafe Service and Product Protection Process (PPP) for food-related businesses reduces bacterial contamination levels on related workwear by greater than 99.9999%. **You can download the white paper,** "UniFirst UniSafe Service and Product Protection Process: Workwear Solutions for Food Product Safety," at UniFirst.com.

UniFirst is TRSA hygienically clean food safety (HCFS) certified

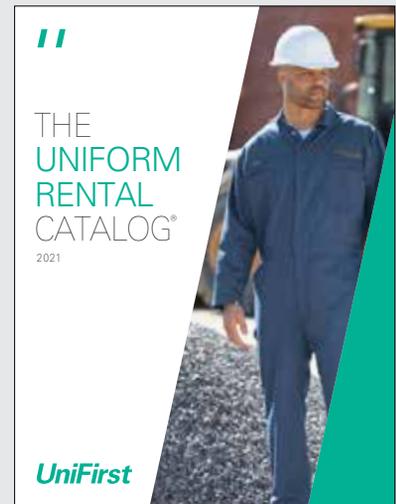

TRSA's HCFS certification recognizes commercial laundries that achieve and verify hygienic cleanliness of work garments through best management practices, quality assurance, and third-party, quantified biological testing.

UniFirst has certified the majority of its processing plants. Those not currently certified are in the process of or scheduled to undergo the certification process.

Trust UniFirst for image-enhancing workwear and facility services

More than 300,000 business customers in virtually every industry across North America partner with us for image-enhancing uniforms and workwear, ranging from traditional and industrial protective wear to corporate casual and executive attire. **And with our cost-effective, full-service rental programs, you never have to worry about laundering, maintenance, replacements, or maintaining product inventories.**

We also provide and service floorcare and restroom products including floor mats, mops, soaps, air fresheners, paper items, and more. To see all of our product and service offerings, ask your UniFirst representative for copies of our Uniform Rental and Facility Services catalogs, or visit UniFirst.com/catalogs.
