

Microfiber Cleaning Solutions for cleaner, greener, healthier facilities

The latest in cleaning technology.

If germs are evolving, shouldn't your cleaning solutions?

Microfiber mops, dusters, and wipers from UniFirst are revolutionizing the way hard surfaces are cleaned by providing a more effective alternative to traditional methods. Microfiber holds six times its weight in water, making it more absorbent than conventional cleaning products. Its positively charged fibers attract and hold dust like a magnet, allowing them to capture even the smallest of dust particles and germs, making it ideal for facility cleaning and infection control efforts. Remove dirt- and bacteria-laden cleaning products from your facility by using UniFirst's microfiber cleaning solutions.

Microfiber

- Lifts and traps dirt and moisture
- Surface is clean, dry, and polished

VS.

Cotton Fiber

- Only pushes dirt and moisture
- Surface remains dirty and wet

In tests published by the EPA, microfiber cleaning products were proven to remove up to 98% of bacteria and 93% of viruses from surfaces using only water (no chemicals).¹

Get Better Results with UniFirst Microfiber

Surface cleaning and dusting

- All purpose cleaning cloths
- Glass and mirror cleaning cloths

The smart choice for your facility

Microfiber cleaning solutions from UniFirst help you present a professional appearance, fight dirt and germs, and lower your cleaning and maintenance costs. Our versatile microfiber cleaning products can reduce water and chemical usage by up to 95%, while decreasing labor time. And our microfiber product laundering and disinfection services eliminate solid waste by making mops, cleaning cloths, and dusters safe to re-use again and again. In all, using our microfiber cleaning system just makes sense. Your UniFirst microfiber cleaning solution is a complete system that increases productivity and lowers your costs.

You'll always have what you need when you need it

With regularly scheduled service, all of your soiled microfiber cleaning products are picked up for hygienic laundering, with clean ones delivered in their place. We maintain your inventory and even replace any missing or worn out products.

What you get:

- Easier, more efficient cleaning
- No upfront investment
- Lower annual costs
- Infection and bacteria control
- Regularly scheduled pickup and delivery
- Professional hygienic laundering
- Inventory management and adjustments as needed
- Free training and education
- Products always on hand and available

The UniFirst 4-Step Facility Service System

Take your microfiber solutions to the next level with our comprehensive 4-Step Facility Service System that helps you win the battle of perceptions with your customers, employees, and other stakeholders and puts the finishing touch on your facility cleaning and safety efforts. We help eliminate the hassle and expenses related to purchasing, stocking, cleaning, and maintaining supplies and inventories with our regular personalized services. We ensure ongoing, reliable, and consistent product availability, delivered only when you need it, helping to lower your housekeeping and maintenance costs.
