

The Choice

for oil and gas industry work apparel programs

Flame Resistant (FR) garments for at-risk workers, and essential solutions for office staff and purchasers.

A well-designed and managed work apparel program from UniFirst not only delivers the professional image you want, but it can also help protect at-risk oil and gas workers against hazardous work environments and, in some cases, could make the difference between life and death.

Whether it's business essentials like oxfords or polos, Flame Resistant (FR) shirts and pants, or FR with enhanced visibility protection, UniFirst's managed uniform rental programs offer workwear for employees in all areas of your business. Our large selection and variety of fabric options help meet safety regulations specifically addressing FR garments, including those from OSHA and NFPA. Choosing FR clothing that meets the strict requirements of the relevant NFPA consensus standards, while also complying with OSHA regulations, will help give employees the best possible protection against the hazards they are most likely to face on the job. In addition, a UniFirst facility services program can help keep your workplace clean and safe, and create a healthier, more attractive work environment.

The products shown here are just a sampling of our comprehensive garments, gear, and facility service offerings for the oil and gas industry. If you don't see what you're looking for, simply inquire with your UniFirst representative.

The background of the page features a blurred industrial scene. In the upper portion, a worker wearing a white hard hat and a light-colored safety vest is visible, seemingly working on a structure. Below this, several large, dark industrial pipes run horizontally across the frame. The lighting suggests an outdoor setting during the day, with a soft glow on the right side.

Cost-effective and protective solutions for all of your workwear needs

UniFirst managed apparel rental services combine expert industrial laundry services with garment pickup/deliveries, inspections, repairs, and replacements to help maintain safety garments' functionality and your professional image.

Complying with evolving safety standards can be easier and more affordable with a professionally managed rental program, and with UniFirst's weekly pickup and delivery, employees don't have to worry about the laundering and maintenance of their uniforms. Plus, our professional mending and repair services help assure that clean, maintained FR and other garments are always available when you need them.

For workwear that helps you protect your employees, comply with safety regulations, and limit your legal liability, trust UniFirst.

Armorex FR®
Work Shirt

Armorex FR®
Work Pants

UniFirst offers an extensive selection of shirts, pants, outerwear, and other image-enhancing workwear. To see all of our product offerings, ask your representative for a copy of The Uniform Rental Catalog®, or visit UniFirst.com/catalogs.

Facility services

UniFirst's facility service programs help you win the battle of positive perceptions with your customers, employees, and other stakeholders. We eliminate the hassle and expenses related to purchasing, stocking, cleaning, and maintaining supplies and inventories with our regular personalized services, and we ensure ongoing, reliable, and consistent product availability.

Floor Mat Service

All of our UniFirst-made floor mats, from decorative carpet-tops and nitrile rubber scrapers to anti-fatigue mats, are designed for commercial foot traffic, and trap and hold dirt, dust, and moisture better than the alternatives. With UniFirst scheduled floor mat service, all soiled mats are picked up and replaced with professionally cleaned ones. Our full-service program enhances your facility's appearance and your business image. And to address your facility safety concerns, all of our floor mats are certified as "high traction" by the National Floor Safety Institute (NFSI).

Wet and Dry Mops

UniFirst mop services are designed to make cleaning easier and more economical for businesses of all sizes and traffic volumes. We take care of all the dirty work, including regular replacements of soiled mops with fresh products.

Microfiber Mops & Wiper Service

Our advanced microfiber mops, dusters, scrubbers, and wipers are highly effective for cleaning hard surfaces. They can be used wet or dry and allow you to clean faster with less water and chemicals.

Ancillary products

Safety products and PPE

To help safeguard employees from the most common workplace injuries, UniFirst offers a selection of personal protective equipment (PPE), including: gloves, safety glasses, eyewash stations, ear plugs, and more.

See the UniFirst Facility Services catalog for our complete line of ancillary products.

Regular weekly service delivers what you need, when you need it, helping lower your housekeeping and facility maintenance costs.

Hand Care, Soap & Sanitizer Service

UniFirst handwashing and skin care products from GOJO® are formulated to clean, kill germs, and keep skin soft and healthy—even with frequent use. They're an essential component of a total hygiene system, and we even have environmentally friendly "green" options available. Each product is specially formulated for your needs and is available with our convenient dispensing systems, featuring portion control, generous dispenses per refill, and greater economy. Your UniFirst representative can recommend the ones that will work best for you.

Paper Towel & Sanitary Toilet Paper

To provide sustainable restroom cleanliness and hygiene solutions, UniFirst supplies TORK® towel and tissue products, which are Green Seal and ECOLOGO® certified and manufactured from base paper that is 100% recycled.

Portion-controlled paper dispensing systems reduce waste and come in traditional and "touchless" options. Easy-to-refill designs also help reduce maintenance time and costs.

Air Freshener Service

UniFirst offers environmentally friendly air freshener systems that neutralize odors at the molecular level, eliminating unnecessary chemical "masking" that could affect air quality. All of our odor control products meet stringent clean air standards and dispense fragrance in accordance with guidelines established by the International Fragrance Association to protect the environment and human health.

Our most popular air freshener system, TCell,™ provides the perfect environmental solution because it does not contain propellants or added VOCs, its components are all recyclable, and the standard dispenser requires no batteries.

We also offer a complete line of restroom products and services not shown. Just ask your UniFirst representative about other facility service options.

Why UniFirst rental?

IMAGE & COMFORT

UniFirst uniform and workwear programs promote a clean, consistent, and professional staff image

- Supplies professional-looking, well-fitted work garments
- Provides durability with the styling and comfort of traditional workwear
- Offers practical, high-quality choices for all departments
- Delivers clean, finished, ready-for-wear work garments on a regular schedule

ECONOMICAL SERVICE

UniFirst rental services lower overall costs

- Eliminates upfront clothing investment costs
- Reduces inventory requirements, maintenance, and administration
- Provides a dedicated service team to address questions or concerns
- Offers lower total cost of ownership (TCO)

GARMENT SAFETY

UniFirst managed apparel programs help meet safety initiatives

- Provides workwear designed to help protect workers from on-the-job hazards
- Aids in compliance with evolving safety standards
- Offers the most innovative and proven FR fabrics available
- Options for high and enhanced visibility safety garments
- Includes regular inspections of all garments and products for automatic repairs or replacements

FACILITY SERVICES

UniFirst facility service programs and hand hygiene stations help improve safety and cleanliness

- Improves facility cleanliness and reduces overall facility maintenance expenses
- Includes functional floor mats and advanced microfiber cleaning products
- Offers specially formulated heavy-duty hand cleaners and sanitizers (PURELL®)
- Provides ancillary restroom products including toilet paper, paper towels, and air fresheners
- Ensures automatic delivery and restocking, so products never run out
